<b>Office Action Summary</b>	<b>Application No.</b> 10/563,723	<b>Applicant(s)</b> YUAN ET AL.	
	<b>Examiner</b> M. Lee	<b>Art Unit</b> 2622	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 06 January 2006.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1- 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kim et al. (2003/0043124).

Regarding claim 1, Kim discloses a mobile phone projector (paragraphs 0040 and 0042) showing a video phone for inherently receiving, parsing, and decoding video and audio data from a stream, which meets the video player as claimed, a video projector (10) including a controller (13) for converting a received signal into a displaying data with a predetermined format, a photo-electric converting means (14), and a projecting means (15). But Kim does not disclose the data format and data rate converting means as claimed. In any event, the controller 13 is essentially the equivalent of the format and rate converting means as claimed because the controller 13 is capable to convert the received non-RGB data into RGB data in order to be utilized by the LCD 14, and to convert an input scanning rate to match those of the output scanning rate of the LCD projector. Hence, it would have been obvious to one of ordinary skill in the art at the time that the invention was made to modify Kim to convert the input data format and input data rate to match those of the LCD projector if the input data format and rate and the respective output data format and rate are ever different.

Regarding claim 2, Kim does not disclose the sound delaying means as claimed. In any event, the examiner takes Official Notice that using audio delaying means to synchronize with the video signal is well known in the art because it enables the audio signal synchronizing with the video signal and thus eliminates the lip sync problem. Hence, it would have been obvious to one of ordinary skill in the art at the time that the invention was made to include a sound delaying means into Kim so that the audio signal and the video signal are lip synced.

Regarding claim 3, the controller 13 inherently converts the input data into RGB data in order to be utilized by the LCD projector.

Regarding claims 4 and 5, in addition of above, the internet or video phone in Kim is a broadband phone because it is intended to receive broadband data.

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Klausner (6,489,934) discloses a cell phone projector.
